REPRESENTATIVE IN Buenos Ayres
Edw. F. Powers.
The above Company have acquired the Rights, Patents, Concessions, Goodwill and Interests of Frederick Allan Gower and Benjamin D. Manton, as existing under a contract between them, dated July 20th, 1880, in the City of Providence, Rhode Island, in the U. States of America.
It is now the purpose of this Co pany to extend Telephonic Communication to the Public of the City and Provinces of Buenos Ayres on a more thorough and systematic plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell Loud-speaking Telephone with appurtenances for same of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of operatives and assistants, hope to attain such success as will bring them to the front as the First Telephone Company of the River Plate.
When a commercial, and even a social, community have the full benefits of a well-organized Telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500.000 instruments are in use. In fact, it has come into such universal use there that its loss would be most severely felt by the Public generally. The Company will introduce into this city the American system in its entirety.
The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put in a satisfactory condition, at the same time he begs to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.
As Buenos Ayres is a city of magnificent distances, the Gower-Bell Telephone will be found in its working the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self-evident qualities that it was specially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 15,000 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.
The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.
Subscriptions to Exchanges, $175 per month.
Private Lines, special terms on application.
Any further information the Local Representative would be pleased to give personally or by letter.

TESTIMONIALS.
From Mr. John J. Mahon, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gillard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. James M. Thomas, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept, 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

GAMBETTA'S OVERTHROW

Now-a-days the fortunes of a country do not hang on the life of a man. A ruler dies; a Minister goes out; there is always somebody to replace him. Nobody is missed. President Garfield was shot, but the fortunes of the United States did not depend on his life; nor does this fall of Leon Gambetta in the least imperil the position of the French Republic. France can do without Gambetta, as well as it did without Thiers or MacMahon. But the fall of Gambetta is an eloquent proof of the fact that great men may fail where mediocrities succeed. The fact is illustrated in scenes of every day life when we see talents and merits eclipsed by dishonesty triumphant. In general, now-a-days, to be a great man, one must be successful, but such is not the case with Gambetta; he has been unsuccessful, but he remains a great man.

It is a melancholy mistake for statesmen to arrive before their time; it is just like putting the cart before the horse. Gambetta committed a serious mistake when he accepted the post offered him by M Grevy; it was unwittingly a political trap into which he fell immediately. He entered the Cabinet with the acquired reputation of a great man; as such he had to meet very wild expectations. Had his reputation been small, his political life been insignificant, in fact, had he been anybody else of his party but Leon Gambetta, he would have succeeded.

From the very onset Legitimists and Republicans, Clericals and Liberals shook hands to overthrow him; the very greatest of men could not resist such an opposition, unless he prepared the arguments of Buonaparte when he ejected the Cinq-Cents. Nobody better than Gambetta understood his critical situation: he saw he could not advance and he signed his own overthrow by bringing forth the revision of the Constitution. He met with the very greatest difficulties to form a Cabinet; he could rely on none to follow out his opinions, except his most intimate friends: the consequences were, that the new Cabinet was a mere personification of Gambetta. Public opinion viewed the new Cabinet in this light; the papers took the matter up, gave the alarm, and shaking the confidence of Gambetta's own supporters, the men who yesterday only pointed him to the crowd as the coming man, turned against him, and in the Chambers only a small nucleus of his republican followers supported him. Gambetta must abide his time; he is acknowledged to be the most talented man in France. But, as happens to all men of genius, or rather in this case of talents, Gambetta has been over-rated: too much individual importance has been attached to his political influence, and outside France his fall has been exaggerated from a stand-point of political importance. This failure will tell on him for a year or two, not longer: in the Assembly he will easily reassert the influence he has temporarily lost. Envy precipitated him as well as political hatred; in the eyes of the clericals he was an abomination; the Monarchists cannot forget 1870, whilst the Legitimists can never forget his scathing sarcasm. Louise Michel and Rochefort, what a duo, have raised the rabble against him, whilst amongst his friends many fell off to join the common outcry against the man of the day. M. Freycinet and Leon Say now go in: this means that the Republic goes back 6 months. The Conservatives come in and the beau ideal of advanced Republicanism, the Grande Assemblee, disappears for a time from the horizon.

ST. CLOUD.

However saintly St Cloud might have been, his canonization has not done as much to spread his reputation as the delightful Parisian suburb bearing his name; it recalls the sunny days of the French empire, the gloomy period of the siege when the Mont Valerien razed it with shot, and the atrocities of the subsequent Commune. The present site at the Retiro—Bieckert's brewery—lacks all historical precedent, and certainly does not remind one of the St Cloud palace now in ruins, commanding a beautiful panorama of Paris, in front of the Colonne de Juillet, where once the Bastille stood; from Bieckert's roof you only detect among the trees the battlements of the Penitentiary, and in the patios beneath empty beer-bottles; with a stretch of imagination you can see the fine Belgrano dome; in front lies the broad expanse of the Plate, a bright mirror of the sky. Really the contrast between Bieckert's palace and the St Cloud palace is striking; but not so the gay crowd in the gardens beneath, so thoroughly French, just what one sees in a bazaar at the Capucines or in the Gardin des Plantes in Paris. The visitor hears the same humorous and silvery laugh, sees the neat and trim toilettes and feels that specially bewitching atmosphere that surrounds the French fair se in general. There is not a spot on this continent so thoroughly Parisian as Bieckert's during this annual feast of charity and of St Cloud.

On Sunday afternoon the gardens were opened to the public; at an early hour the precincts were thronged with a most democratical attendance, embracing the French population of all ages and of all walks in life. Several brass bands enlivened the scene, and the gardens looked most picturesque adorned with flags and flowers, stalls and out-door amusements, with a crowd of beaming countenances, all looking happy and gay; but from one cause or another the feast was not as lively as last year; the visitors were not as numerous and one missed many familiar countenances. The flower-girls flitted about and sold medals and bouquets freely; the tickets of the great tombola were selling quickly in the hands of some of the most charming French ladies, whilst the business carried on at the stalls was simply astonishing.

At night the gardens were illuminated 'al giorno,' and we thought of the electric light as the wind extinguished many of the gas lamps. Compared with the night appearance of the gardens the scene of the afternoon looked prosy. A concert was going on and the most popular airs of the day were sung by Mmes. Carlany, Blanche Cavaelé, Hudson and Merle. The gathering at nine o'clock was very large and over 1,500 people must have been present; all the gentlemen wore two or more medals, and every thing augured a most successful day as regards the yield to the treasury.

One remarked with pleasure the appearance of two Italian clubs on the grounds: several German barraqueros bought freely on all sides in spite of the bad telegrams from Antwerp, and several English shipbrokers were seen staggering under the weight of medals and prizes won in the different contests of the day. Several well-known French ladies presided over the stalls, and at a late hour few objects were to be seen on the shelves: fortune seemed favorable to all, nobody lost, all won. A bottle of champagne could be won for 5 m/c, whilst Havannah cigars were sold by the hundred. Whoever goes to the Eliseo with money must make up his mind to drop it all, and even leave the gardens indebted to some kind friend for the tramway fare home. Let this not frighten people away, as there is no such thing as extortion; it is all the influence of the surroundings and of the charitable feeling one imbibes in so attractive an atmosphere.

LONDON LETTER

(*From our own Correspondent*)

THE NEW YEAR.

January 3rd, 1882.

Last year we were told, in the careful language of Messrs. Ronald and Sons' Wool Report that—'While the expansive course of trade has every prospect of additional and sound development during 1881, anything like the recurrence of last spring is as improbable as it would be unfortunate.

Well, curious to say, the spring before last did not occur in 1881, probably last spring will not occur this year, but it is well to be on our guard whether the question be wool or business in general. In the midst of prosperity in France it is not pleasant to hear of failures at Havre and Bordeaux. We are not without our failures of small mercantile houses and rumours of difficulties amongst our friends abroad even in London. Things here are quiet enough and healthy enough, but there is a continuous drain of bullion going on. The excess of exports in the last year was £5,500,000, not a very large sum in itself, but if the flow outwards proceeds it must inconvenience bankers in case there should be any casual pressure. That trade in general is improved in tone as well as in bulk is manifest from the relatively small number of failures in the past year compared with preceding years. That is to say, there have been 12,005 failures in the past year against 13,147 in 1880 and 16,637 in 1879. If a pressure should come, it will arise from the solidism which now obtains amongst the great commercial nations. Even in England prices of all securities are very high compared with a few years ago. That in itself might be an evidence of prosperity, although we might make an exception in regard to Consols, which are not always an indication of national credit, and are often pushed up by want of confidence in other securities. In France it is different, the prices there are purely speculative and out of all reason. You may have seen the following quotations:—Bank of France Shares, £40 paid, quoted at £147 in December 1880, rose to £238 in December last. Union Générale, £5 paid, rose in the course of the year from £38 to £115. Suez Canal, £20 paid, rose from £9 to £134. Northern of France Railway Shareo, £16 paid, from £69 to £87 10s. It is impossible such prices can last, and the only and very serious question is, will they fall gradually or tumble in time of panic. The least disaster could not fail to influence other markets. Contemporaneously with this speculation in securities, an enormous amount of capital has been temporarily locked up in new companies. The total during the year amounts to £93,608,000, which is £2,000,000 in excess, according to this day's *Times* of the capital of companies started in England during the same period—that is, during the past year. I do not refer as an alarmist to these facts. It is quite understood that even should a crisis arise from over-speculation in securities, the loss falls on individuals, and the results differ very much from a commercial crisis, which affects labour and the whole productive machinery of a nation; but whatever weakness may be mani-

fested in general, trade will be immensely aggravated by a monetary crisis. It is not a fortunate thing for France that just at this moment, when speculation is at its height, and when there is neither a solid political administration formed nor a distinct Government policy foreshadowed, the commercial world should be thrown into doubt and agitation by the possible failure of the negotiations for the renewal of the Treaty of Commerce with England. The chances against her by restoring fiscal liberty to this country in the event of the Gladstone Government being defeated on the question of 'Parliamentary Procedure,' are exceedingly serious, and even with the Liberal Government in power the French wine trade is not safe, as articles of luxury are fair game for Chancellors of Exchequer of all parties. But the question is not serious as one of retaliation that may affect certain interests. The Treaty was made to nurse relations, political and commercial, between the two countries, and in other respects it was an economic evil. But in its particular objects it was a great success; to impair its results politically or commercially would certainly be more serious to a continental nation like France than to England, who is more independent of alliances, and so long as by free trade she procures what she requires to feed and clothe her operatives from France, amongst other places, the one outlet for certain classes of manufactures by the closing of French ports would be of comparatively trifling importance. It is astonishing that the French intellectually so logical, should in commercial questions be swayed by the pettiness of the 'epicier.' I am glad to say that all hopes of renewing negotiations of a Treaty are not wholly lost in spite of present appearances and of the departure from Paris of Sir Charles Dilke. The difficulty is purely a political and domestic one in France, because the English commercial proposals have not been changed and have long been before the new French Government. M. Gambetta has his revision of the Constitution and many political ends we know nothing of, which have to be accomplished by a dexterous management of the Chambers. He is afraid that if he were to sign a draft of the Treaty with England it would not be confirmed by the Senate at least, and perhaps not by the Deputies. He would thus at the outset of his administration subject himself to defeat. It is therefore not impossible that if negotiations are broken off they may be resumed before the expiration of the Treaty, or a further postponement may be made of the date of expiry, so as to allow M. Gambetta to get his rather heterogeneous team in order, and to feel himself safe in his seat.

In England neither the Revenue returns nor the Board of Trade returns are as satisfactory as might have been expected as indications of general improvement either in trade or the consuming power of the nation; but they are sufficiently favorable to confirm other existing signs of improvement and to give hopes of prosperity in the present year, As for the wool trade, in which you are specially interested, there is nothing more to be gathered from Mr. Rouald's annual circular than that production continues to increase, but that supplies may or may not be excessive, whilst 'Stocks are open to favourable interpretation,' whatever that may mean. The business seems sound, with hopes, not very clearly announced, that wool may participate in a general revival of trade. The following interesting quotation is from Messrs. Ronald Sons and Co. Liverpool circular.

The receipts at this port from the River Plate for last year have not reached 1,000 bales, being only one-third of the quantity imported in the previous 12 months. When it is considered that the manufacturers in this country now regular purchasers of this class on the Continent, it appears to be a matter for regret that more of these Wools are not regularly seen here, as was the case in former years, for if they could be laid down at proportionate prices, it would only be natural for our home users to prefer operations in this market to their own advantage, as well as to that of the importers. With about 700 bales in stock at the beginning of 1881, which having been bought at high cost abroad, were held off the market, a moderate amount of business only was done in new arrivals at fair rates, during the first few months, and since then, from time to time, small sales have been made, lately at rather better figures, leaving only about 100 bales now on hand. So far, hardly any of the new clip has come to this market, but the few parcels received on the Continent are reported to be in pretty light condition and well grown. For a good lot of Buenos Ayres No. 1, suitable for Liverpool or Havre, 7¾d per lb., and for Montevideo Meriuo 9½d. to 10d. per lb., with 8¼d to 9¼d Per lb for No. 1 and 2 qualities, appear to be safe quotations to count upon.

A matter of interest and satisfaction regarding fine Wools is that in London, the chief centre for the sale of these classes, 100,000 bales more have been disposed of than during the preceding year, at prices which scarcely fluctuated 10 per cent. throughout the whole period, leaving off now at almost the same range as twelve months ago. Considering that out of an importation of over 1,000,000 bales only 10,000 bales are held over against 15,000 bales in 1880, it seems that this branch of the Wool trade, at any rate, is in a very healthy state.

EDITOR'S TABLE

The news by the Equateur will be found in our Supplement. The latest London dates are to 4th inst. Harrison Ainsworth, the great novelist, is dead. In the *British Trade Journal* we find a very interesting article on English trade with Spanish countries, by our brother Mr. M. G. Mulhall.

We understand that a grand political 'dejeuner a la fourchette' is given this morning by Dean Dillon and one or two other gentlemen, with the object of knitting more firmly together the several groups of the great Autonomista Nacional partido. The Dean rightly considers that there is nothing so conducive to dissolution as disunion, and has most happily conceived the idea of bringing all the numerous heads of parties together round his hospitable board. It will be a veritable meeting of Notables. We hear that the President of the Republic and his Ministers, the Governor and his Ministers and the most conspicuous members of the Autonomista—Nacional party will be amongst the Dean's guests. We cordially applaud his idea and congratulate him on his tact in uniting apparently discordant elements. Had he been able to return a little sooner from Ireland, we think there would have been an English representative on the Bank Board this year.

To please our readers, we epitomise in another column the telegrams published by our Argentine colleagues. Our space is so extremely limited that it is impossible for us to give the telegrams in full.

We have received by the mail a neat map of the intended Panama Canal,—a truly tremendous undertaking. The map reminds us of those we used to receive in such numbers during the Franco-German war, and looks uncommonly like a 'rechauffe' of one of same. However, it shows the Canal 'tout le meme.'

We are requested by the Passionist Fathers to announce that they are residing (temporarily) at 838 Calle Independencia, between Sarandi and Rincon.

A kind subscriber has favoured us with the latest copy in the Plate of the *Natal Mercury*, for which he has our very best thanks.

We were at the French Saint Cloud Fete on Sunday' and it was very jolly, though under the mark of former years in some respects. Gambetta's tumble from the heights of power did not affect the fun in the least; in fact, the truth be told, the French residents seem rather pleased at the collapse of the obese statesman.

We are requested by the Rev. Father MacNerney to state that, for the convenience of English speaking Catholics, he will attend the confessional, at the Merced, on Friday and Saturday mornings, from eight o'clock till noon. At any other time confessions will be heard, and sicky calls will be attended, if notice be left at the Merced, or Holy Cross College, Corrientes 595. Mass every morning at the Merced at 8.30; on Sundays and Holydays at 11.

The 'Tir Suisse' meeting, to commence at Belgrano on Thursday next, will be the grandest affair of the kind ever seen here. As the Swiss are very early risers, business will begin early, and the start from the Central will be at 8½ a.m. The shooting will continue for four days.

Our colleague *El Nacional* is responsible for the mistake we made on Sunday in stating that Mr. Edward Casey had purchased a diamond necklace at Messrs. Baltar & Quesada's auction on Saturday. Mr Casey did not purchase the necklace, and tells us that he would prefer to purchase 1000 sheep.

The announced intention of the Municipality to stop the 'pomo' nuisance during Carnival this year meets with general approval. We hear with much satisfaction that the edict will be vigorously enforced, so we caution our readers to make no investment in 'pomitos', as the purchase of even one for ten paper dollars might easily ensure them a disbursement of 500 of the same, in the shape of a fine.

The Southern Railway is doing a roaring traffic. Such is the glut of produce coming in, that ninety bullock carts full of wool have been waiting at Dolores station for four days for waggons.

We have many complaints that the *Standard* is not well printed just at present; a painful fact which, we acknowledge. The heat has something to do with it, as it affects the ink rollers. However, we are daily expecting new type and larger paper out from Europe.

The average number of scuffles and arrests took place on Saturday and Sunday nights at the masquerade balls, but, fortunately, none of the theatres were burned down.

The Merlo police did a good Sunday's work by capturing, at the railway station, the bandit Juan Acosta who lately murdered a man at Lobos. Sr Varela, Juez de Paz, recognised Acosta in the train and had him arrested the moment it stopped, as also two suspicious looking customers who were travelling with him.

Dr. Pizarro published his eleventh Epistle yesterday morning, addressed as usual, to General Sarmiento. The ex-Minister has gone to Cordoba, to work for Governor Rocha as next President of the Republic! So he says.

Dr. Buenaventura, the respected Bishop of Salta, has just issued a pastoral to his clergy prohibiting them from taking any part in politics, under pain of being suspended in their holy office.

Amongst the queer things sent from Corrientes for the Exhibition is a monster sweet potatoe weighing 43 lbs!

We may as well remind our readers that Thursday will be a strict holiday—the Feast of the Purification of the Virgin.

We commend to mining men the letter in Sunday's *Nacion* about the mines in San Luis.

Yesterday there was a meeting of the various 'Empresarios de Tramways' at the Municipality, convened by the Lord Mayor. All the City Companies were represented, and five municipales attended—Messrs. Rodriguez, Costa, Argibel, Wals and Murhall. The Lord Mayor stated the case in his own clear, sharp way and offered, if the Tramway Companies deposited $200,000 each in the Provincial Bank, that the Municipality would take charge of the street repairs until the money was spent, when a further sum should be deposited. Messrs. Lacroze, Moores and Villafañe, spoke to the question and declined the offer as too uncertain, Mr Balaustegui, the Asesor, explained the law and the responsibility of the Companies. A message having come from Congress Hall for the Lord Mayor to attend the 'insaculacion' for the elections, after a prolonged discussion the meeting was postponed until Wednesday at the same hour.

It was very generally said yesterday that Governor Rocha's long-expected Message to the Chambers on the new capital Question will be sent to the Legislature before this week is out.

Thirty Shetland ponies were stolen from Mr Elia's estancia near Maipu a fortnight ago, yet not a word has been heard about them since.

Any one who is thinking of going into business as a smuggler will find the Upper Uruguay a splendid place for a start, as Custom Houses or coast guards are alike few and far between.

One of the Merced Orphans is about to be married shortly to Mr Ramon Garcia, a young gentleman who fell in love with her as she was walking in the Paseo de Julio one day with the rest of the orphans. The bride elect, Miss Arana, is very handsome. Dr Echague and Mrs Ledesma will be the 'padrinos'. The 'trousseau' is being made at the City of London.

A movement is going on amongst the estancieros in the South to get up another Sociedad Rural with a little more grit and go in it than the existing one. We should say that it would not be difficult to do that. The estancieros all say that the somnolency of the present Society allowed them to be saddled with the new Cattle Marking Law, a most obnoxious, useless, and oppressive enactment.

We observe by notice in another column that the well known refreshment and lunch rooms called the Bank Halle, opposite the Provincial Bank, is for sale. Seldom do such opportunities offer for a pushing man of business.

On Wednesday Mr Araga's New Telephone and Electric Pillar-Light scheme comes up before the committee at the Municipality. The scheme is the grandest we have seen, and if carried out there will be 40 electric pillar-lights which will shine over to Colonia.

The report of the National Bank was given round yesterday. It shows splendidly for the Bank. The Directors urge an increase of capital to meet the growing business. The profits of the branches have doubled. The total profits last year were 819,000 pats against 509,000 in 1880.

The rain came down in glorious style yesterday afternoon and cooled every thing, washing the streets as clean has new pins.

The papers report two awful murders, one at Raochos, the other at Chascumus, the victims in both cases being Italians, one an old man.

They got an awful fright in Moron the other day owing to a case of 'cholera nostras' turning up. 'Cholera nostras,' however, is not very dangerous when cut short at once, and when this became known the affrighted neighbours recovered their equanimity,

A new market is about to be erected, at the corner of Calles Callao and Corrientes, at least a proposal for such has been laid before the Municipality by the "empresario" who wants a ten years' privilege. We hope it wont be given. Farming out the city markets has raised the price of food outrageously on the citizens. All the markets should be in the hands of the Municipality alone, and free. The existing system is the worst possible.

While a man was taking a swim in the river at Rosario the other day, he suddenly made the acquaintance of a huge alligator; he turned round and swam for his life reaching the shore whole, but with an ugly wound inflicted by a slap from the monster's tail.

The demand for gold to-day on 'Change was scarce and the supply large. Prices are weak and rates for cash and to morrow are at 25.05. The market was very dull, and few believe in a rise in gold for the present, since the French crisis and Capital question have been fairly talked out. At Minister Del Viso's fine residence in the Calle Rivadavia an interview was held between General Roca, Minister Del Viso, and Governor Rocha and Minister Uriburu. The question of the moment was the new Provincial Capital, and Governor Rocha received assurances that his stay in this city, even up to the end of the year, would cause no inconvenience to the National Government. We hear that before the 15th of next month the message on the new Capital will be presented to the Provincial Legislature, when the question will be ventilated and discussed. It would appear that Ensenada offers the most advantages, and that the old town of Toloza in that neighborhood is to be the favored suitor for the honor. At all events the Provincial Government must select some small town or another in the neighborhood of this city for the present, and there are no probabilities of the Legislators decreeing the erection of a Capital in the desert. There is, nevertheless, no spot better suited for the Provincial Capital than Bahia Blanca, in spite of the crabs, but it will take a century before the Capital will be moved to that far-off spot.

Cedulas were slightly firmer to-day and operations in Series A were done at par. Series E is weak, and in fact the business doing in Cedulas is very limited. Should the stock be in demand prices would rise quickly. There has been some talk of starting branches of the Mortgage Bank in the neighbouring camp towns; the rumour no doubt arose when the Provincial Bank decided to establish branches in the suburbs of this city, that the new Mortgage branches are on the "tapis" it would be premature to state, but as our readers know the bill framed in the Legislature last month on the Bank stipulates that these sucursales must be created and that every branch of the Provincial Bank is a natural agent of the Mortgage Bank. The sooner these new sucursales are started the better, and we are sure that the Bank will double its business in the rural districts by the measure.

Some National Bonds of the 1863 emission were sold to-day at 85 o/o; this quotation shows a fall of two per cent as compared with last quotations and of 4 per cent as compared with some sales of last month. There is very little doing in National Stocks.

Nat. Bank shares to-day were bullish in the beginning but relapsed subsequently. As was anticipated by many on Saturday, the bulls entered the market with determination and drove prices up for to-morrow and end of the month. But the market looked demoralized, and the rise could not be kept up, prices falling as low and lower than opening rates, the market is indifferent and brokers show little inclination for business, no doubt tired out with Sunday's amusements. Sales for cash are quite insignificant: 10 were sold at 128. For end of the month a large number of shares changed hands; rates opened at 128½ firm, rose to 129½ and fell slowly to 128½, where they remained weak. For end of February some important operations were effected; rates opened firm at 131, but declined gradually to 130½. Most parties were intent on the meeting of shareholders of the Bank to-day at two o'clock, and but for this circumstance, it is probable that more business would have been transacted, there were many speculations as to atterhour rates of shares for the end of February, the total operations of official hour only amounted to about 4,700 shares.

Mr Uriburu, it is reported, will be the new manager of the Flores branch of the Provincial Bank.

The greatest land auction that the Provincial Land Office ever held came off to-day. Never before had there been such a crowd of buyers and bidders. The Venado Tuerto sale last year was nothing compared to the present auction. Fully 400 people were jammed in the narrow precincts under Mr Feire's jurisdiction; according to a friend's statement, all the well-to-do Italians and Basques in town attended, and had there been a lunch and some iced champagne, the lands would have been sold for double the present high rates. The 85 leagues put up for auction are on an average 25 leagues behind Guamini, between the latter spot and Tronquelauquen; a little more inside lies the land that the province of B. Aires gave to General Roca, some twenty leagues of prime camp. Many parties went to Mr. Freire's office with the fixed determination to buy, but could not get near enough to see what was going on, and some had to be satesfied paying a high premium for the bolotos already given: the average price per league was 248,000 m/c, the highest price paid was 273,000 m/c, the lowest 190,000. The crowd was so great that it was impossible to get the names of all the buyers; the principal ones were—

Messrs Omar
Gari
Rom
Rojo
Mones Cazon
Naon
Soto
Asgarañas.

The bids were so high that many wondered whether the bidders were off their heads, but it must be remembered that the conditions of payment are eminently favorable, and speculators hope to resell the land at a large profit two years hence.

It appears that news has come from England announcing that the Bahia Blanca extension will begin soon with the greatest activity, as soon as the plans and surveys are approved.

Messrs Baring Bros, the great London Bankers, admitted on the 1st inst. as partners the Hon. Francis Baring and Mr Robert Kirkman Hodgson.

Mr W. Woolgate has bought half the interest of the well-known Merlo ostrich farm; terms reserved.

Mr Heller of Tucuman was welcomed on Change; he brings many valuable exhibits for the Exhibition. Exchange was done today at 49½ paper, and 49⅝ and 50d gold, 5.28 on France and 5.29 on Antwerp asked. Little done.

Discounts in paper are difficult for the moment, as the Banks are holding back till after the end of the month.

National Bonds were sold to-day at 85, the quotation in London on the 26th inst

13,000 arr. of wool arrived during the two days in the Once: half of it sold. The German houses are buying more strongly than the 'criollos.' Next Thursday we may expect telegrams of the Antwerp auction: to-morrow Australian wools will be sold, the day after River Plate kinds.

A good deal of gold was sold to-day outside the ring and at afterhours.

The meeting at the National Bank after all did not concentrate the attention of the market, and many brokers even ignored the names of the new men named—

The Memoria of the Bank was distributed on the Bolsa, and its contents are the greatest credit to Mr Pacheco, the President. The Memoria may be summarized as follows—

"Profits of the Sucursales 100 o/o larger than in 1880—$f.323,585.46

"Drafts on the central establishment in this city in the years

1880	$3,806,223
1881	7,892,096

"Circulation of the Bank notes in—

1880	$1,428,590
1881	2,410,808

"Deposits and accounts current in the sucursales in—

1880	$27,763,336
1881	42,256,931

"Total deposits and accounts of the Bank in

1881	$15,411,540

"The operations of the central establishment embraced—

and	
	$54,352,407 curso legal in 1881
	39,697,525 curso legal in 1880

"The immense progress of the Bank in the Interior shows the great development of the Provinces; operations have much more than doubled, as can be seen by the figures, in the sucursales of the Bank. The following comparative figures of the Bank will be found interesting:—

	1880	1381
Profit	509,078	819,672
Emission	1,428,590	2,410,808
Dividend	186,000	527,000

"The figures speak for themselves. At the meeting it was decided to pay a dividend of 5 o/o this time, making up a total dividend in the year of 8½ o/o. The profit of the Bank shews an increase of 61·01 o/o over those of 1880."

At afterhours the rain came down in torrents, and people were obliged to remain in the hall longer than usual. Some amount of gold was sold at 25.05. In National Bank Shares some 1,500 were sold at prices that weakened with every sale. The market closed as follows:—

For to-morrow 123
For end of February 129

The market closed weak. Nothing was done in Cedulas as other stocks.

Advices from Montevideo state that the well known Verragaud scheme is raising a 'pampero' in financial and editorial circles. The failure of the scheme is officially contradicted, and hopes are entertained by the parties interested in the matter that it will be launched in some money market of Europe. Letters from London state that Mr Verragaud has most unfortunately met with a cold reception in his attempt to start the Bank on British capital; it was then rumoured that the scheme might be floated on the Parisian Bourse, but the last melancholy advices from France in the shape of a Cabinet and financial crisis are not very favorable to any attempt of the kind. Whether the Verragaud Banco Real Mixto is, or rather will be, an advantage to the Montevidean Republic, is a question of a very delicate nature, as two opinions creep up in the matter. We think that the support given to the creation of the new Bank by the Government of Montevideo is also a very good recommendation as to its future stability, if ever started. As the affair is a mere embryo, it remains to be seen if it will ever be able to survive the adverse weather, blowing from the London market. A few months ago, the concern might have been launched in Paris, as there the speculation fever was its height, and then was even some talk of organizing a company to work some new element, more precious than gold and silver, lately discovered in the moon. But the crash reported to have taken place shuts the door to any more financial attempts for some time.

In the *Memorial Diplomatique* we read an eloquent defence of this country from the pen of the talented young Argentine lawyer, Dr. Centeno. In a note addressed to Mr Mampier he refutes all the assertions made by this gentleman in reference to the Argentine Republic in a late work of his on America. Mr Mampier, is known as a member of the French Academy, and has tried to palm off on the French public a good lot of literary "blague" about a country he totally ignores. Some specimens of his knowledge of affairs South of the line may be derived from the fact, that he believes the Argentine Republic in hands of dictators, like Rosas. History is thus written by an "academicien" the style of the author is as heavy as the absurdities that flow from his pen. This Republic according to his statement, has a population of 740,000 souls. Happily he does not fall into very many geographical errors; he has been able to discriminate between South America and North America. His writings in the great Northern Republic are pronounced excellent, no doubt, because he knows something of the country, but these parts are "terra incognita" to the author, and it is a melancholy fact that all the Frenchmen who read his productions take them as gospel truth.

The papers received by last mails give the following about the London money market:—

"Three months' Treasury Bills were to-day allotted at a discount rate of less than 4 per cent. per annum, some few being taken under 3¾ per cent. For market bills the competitive rate is down to 4¼ per cent., but a good many houses acknowledge nothing under 4¼ per cent. on three months' bills. A large amount of money in repayment of recent 2-day loans has gone back from the market to the Bank of England, but the outside supply appears sufficient; still short money is quoted 4 per cent, without much demand. On Friday next the Consol dividends will have thrown nearly six millions up on the market; and although a good deal of this will fall shortly to be repaid to the Bank, a depressing effect on discount rates is anticipated. As the quarter wears on, the revenue payments will in the usual course take money out of the market again; but that is not the immediate tendency. The sum of £30,000 in gold was taken from the Bank of England to-day for Egypt, while £8,000 in sovereigns was sent in from Australia. The amount of gold now on the way from Australia is about £369,000, of which £56,000 is due to arrive here on the 11th inst. by the steamer Clyde, the next arrival [about £3,000] being due nearly a month hence. The steamer Trent, from the River Plate, has brought £2,388 in specie; and the Wieland, from New York, £17,000. The Don has sailed for the West Indies with £16,050, and the Minho, for the River Plate, with £50,000 in specie. Quotations in the silver market remain at 51 13-16d. for bars, and 50¾d. for Mexican dollars, business being very quiet.

"The tenders for £1,425,000 Treasury Bills were opened to-day at the Bank of England. The amounts allotted were as follows, viz.:—In bills at three months, £1,425,000; in bills at six months, nil. Tenders for bills at three months at £99 0s. 4d. will receive about 9s per cent; above in full.

"As respects foreign stocks, the current difficulty of carrying over accounts in Paris has not altogether checked French buying today, but sales have had preponderance, and prices are not on the whole maintained. The chief movement has been in Turkish stocks, the 1858 and 862 loans being alone firm (and ¼ per cent. higher on balance) on purchases in view of the heavy sinking fund provided by the Bourke arrangement. Other Turkish issues are down from ¼ to ½ per cent. for the day. Egyptian Unified is fractionally lower, while the Preference and State Domain have risen ½ to ¼. Mexican and Peruvian have receded ¼ to ⅜, and Spanish Three per Cents. nearly ⅜ per cent.

"Our Paris Correspondent telegraphs as follows:—"Choques, 2½-2¾. Reckless contangos are paid varying from 12 to 35 per cent., and yet the Bourse seems more excitedly sanguine than ever. Prudent bankers are withdrawing from contango business under the circumstances. Piganneau and Son's circular states that no losses accrue to third parties. It is rumoured that the firm will be reconstituted with new capital furnished by commanditaires."

"The rates of the Stock Exchange are as follows:—

Argentine 6 o/o 1868	99½	99¾
Do do, 1871	98½	99
Do 9 o/o Treasury Bonds	119	
Do (Hard Dol.) 1883-67	88¼	88
B. Aires 6 o/o 1870	96½	96
Buenos Aires, 1873	96½	96
Chilian 7 o/o 1866	104½	
Chilian 5 o/o, 1873	90½	89½
Do 1875	90½	89½

We take the following interesting figures from Mr H Aitgelt's *Weekly Review of Agricultural Produce*—

"Arrivals of the week—

Wheat	326,050 kilos
Flour	211,574
Maize	240,266
Flax	170,693

"Wheat—

"The rise in Rosario and Sta. Fe classes has continued this week, we quote at $17-18. These high prices at the commencement of the season (and speculators not having bought a single fanega as yet) have not been heard of during the last 10 years, and are difficult to explain. The sales have been few; from the rivers a cargo per Satellite at $170; one special lot of Salado at 184; another at 172 and 177 per 9 ar.; all new class. In Oeast class, old, picado, at 170; new at 150-168; and 1 lot special at 187.

"Flour—

"We note some heavy sales of old class from the rivers at 26 and 27. French class at 30; holders ask 31. Market closed firm.

"Maize—

"We hear of no transactions for export; for city use a contract has been made for 5,000 fanegas, new, shelled, at $50, to deliver monthly.

"Linseed—

"Very little has come to the market, owing to the scarcity of railway waggons; that arrived is of an inferior quality. Sales have been made at $5-12, with and without bag, delivered in the Once and Catalinas."

We shall sell the above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid in forming this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determinatioc to retire from business.

Zeucne, San Jeane, Venus, Toscas, Pichon, etc, have given on our races courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

300 Squares of extra-superior Camp

The richest and most complete in the neighbourhood of the Capital, land high, and undulating and consisting of beautiful vales, water permanent, fruitful soil suitable for agriculture, will be sold in small lots or in one lot.

The attention of agriculturists is directed to the fact, that the camp is on the river Conchas adjoining the Morales' bridge, alongside Molino Bancalari. This camp should be visited; there is no better in the province in regard to height, beauty, splendid pastures and picturesque situation

And an opportunity of convincing yourself of this fact is offered you by attending the sale which will be held on the camp itself.

On Sunday the 4th of September, at 4 o'clock in the afternoon, we shall proceed to sell to the highest bidder this magnificent piece of camp, divided into lots to place it within the reach of small capitals.

This camp needs no praise from us; a visit from anyone interested in acquiring land for cultivation or pasturage will be quite sufficient.

In regard to height it is most elevated, its undulations reminding one of the Banda Oriental.

From the ground a fine view is obtained of Moron, Moreno and Bella Vista, &c. With regard to the elevation of the land we remember the remark of a gentleman occupying a high position in the Government—"If it depended on me, I should have the new Capital built here." So much for the height of it.

The land is covered with grasses of the very best kinds suiting for pasturing or for wintering animals. There is an offer to rent the land with a contract at $120,000 m|c per annum. Therefore as agricultural land or for pasture, this ground is unsurpassed, and is equally adapted for either. The land has 2,065 varas frontage on the river Conchas by 3,600 vs depth, it is situated alongside of Morales' bridge, on the right hand side, and has been subdivided in small lots, but can be bought in one lot at option of purchaser.

For plans and further details apply at our mart San Martin 51.

Dos lotes de campo, cada uno de 4 leguas cuadradas.

Estos campos distan 90 leguas unicamente de Buenos Aires, cuatro de Italo y diez de Fortin Gainza. El ferro carril de Clark que debe construirse en prolongacion desde la ciudad de Mercedes (Ferro Carril del Oeste) hasta Villa Mercedes del Ferro Carril Andino, pasara inmediato a estos campos y entonces quedara a un dia de viaje de la capital.

Los pastos son inmejorables, son mezclados y de superior calidad como se podra ver por la diligencia de mensura.

En cuanto a la base nos parece escusado de decir nada, cuando hemos visto vender campos iguales, y algunos mas inferiores que estos, desde $150,000 hasta 350,000 leguas.

Dejamos a los interesados que lo den el valor que verdaderamente tienen, pues pasando la base de $50,000 venderemos.

Por mas informes ocurran a nuestra casa, Alsina 78.

The Equateur's Mails

London, Jan. 4th.

It is stated by the Paris *Soir* that though the commercial negotiations between England and France have not been broken off, they have become extremely difficult. Many agriculturists have made common cause with the Protectionist manufacturers. The consequence is the proposal of a tariff which England will not accept.

We have received from the Admiralty the official report of the encounter with a slave dhow on the 3d ult. off Pemba Island, in which Captain Charles J Brownrigg, of her Majesty's ship London, was killed. It seems that he had no intention of boarding the dhow, as she had hoisted French colours, but merely went alongside, in the steam pinnace, to verify her papers. When quite close a volley was fired from her. A number of Arabs, estimated at from 15 to 25, immediately afterwards boarded the pinnace. Captain Brownrigg was at once attacked, and defended himself with great determination for upwards of twenty minutes, when he was shot through the heart and fell dead; having received no fewer than 20 wounds besides the fatal one. The dhow was afterwards captured, as well as eight Arabs implicated in the attack. No papers were found on board, or anything to verify her nationality.

Our Correspondent in Berlin says that the special Turkish mission to that city seems to show its fruits early. Thirty-six officers of good standing in the Prussian army have been chosen, our Correspondent learns, to assist in the reorganization of the Turkish army.

Our correspondent in Vienna telegraphs that persons who have arrived in Cracow from Warsaw say that the desolation in the latter city is almost beyond description. Rows of houses have been demolished and whole streets devastated. It is generally believed that the movement was prepared long beforehand, as attacks upon Jewish tradesmen commenced simultaneously in many parts of the city.

Mr. Bright and Mr. Chamberlain addressed their constituents in the Town-hall, Birmingham, last night. Mr. Bright contrasted the foreign and domestic policy of the Government in a very favourable light as compared with that of their predecessors. Critics alleged that England was now without an ally or a friend, but he asserted that if England had no allies, for which he cared little, she never had more friends. Referring to affairs in Ireland, Mr. Bright traced the cause of Irish disaffection to a long course of Tory misrule in the past, and justified on the ground of absolute necessity the coercive measure of the Government. He pointed out that much of the Irish discontent now arose from a misconception or ignorance of English liberality, whilst Irish poverty resulted from a driving away of English capital. Mr. Chamberlain believed that the Land Act as a remedial measure would in the result be successful. The Government would put down open or covert rebellion and find necessary means to enable the Land Courts to deal with the cases that come before them. He trusted that the Liberals would take the first opportunity of removing the restraints which it had been found necessary to impose.

By a majority of 29 to 23, the Corporation of Dublin yesterday resolved to confer the freedom of the city upon Mr Parnell, M.P., and Mr Dillon, M.P., and a resolution was passed requesting the Lord-Lieutenant to allow those gentlemen to attend at the City Hall, on a day to be named by his Excellency, in order to sign the roll and to receive certificates of the freedom.

We regret to announce the death of Mr Harrison Ainsworth, the well known novelist, which took place at Reigate yesterday morning. Mr. Ainsworth, whose historical romances have been before the world during half a century, was in his 77th year, In September last he was entertained at a banquet at Manchester, the city of his birth, and was warmly complimented by the Mayor on the length and marked success of his literary career.

At the Manchester New Year's Meeting yesterday the Duke of Hamilton's Eau de Vie won the Hunters' Hurdle Race Plate, and amongst the other results of the running were the following: January Hurdle Race, Alroy; Tuesday Selling Hurdle Race, The Miller; Selling Hunters' Flat Race Plate, Broomieknowe; Trafford Park Handicap Steeplechase, Glen Jorsa; Maiden Hurdle Race, Snip.

At the Royal Observatory, Greenwich, the mean reading of the barometer last week was 30.14 in. The mean temperature was 41.4 deg., and 2.6 deg. above the average in the corresponding week of the 20 years ending 1868. The mean on Sunday, the 25th ult., was only 37.1 deg. and was 2.1 deg. below the average, whereas an excess prevailed on each of the other days of the week.

At the Bank yesterday the Treasury bills were allotted at a discount rate of nearly 4 per cent. for three months. 24,000l. in gold was withdrawn on balance. In the open market the rate of discount was 4⅛ per cent. In the stock markets the tone was generally good, but American stocks left off at a fall of from ¼ to 2 per cent., and foreign Government issues closed below the best points. London and North-Western stock rose more than 1 per cent. Ottoman Bank shares were in strong demand. Consols closed at 99⅝ to ⅞ x.d. for money and the account.

STATE OF IRELAND.

GREAT MEETING OF LANDLORDS.

Dublin, January 3d.

The meeting of landowners in the Exhibition Palace to-day was undoubtedly an imposing demonstration. The large concert-hall, which seats about three thousand people, was filled The speeches were comparatively mild, and on the subject of compensation the opinion appeared to be concurred in that until the appeals from the decision of the Sub-Commissioners have been heard, or at least a portion, a demand for compensation would be premature. The Duke of Abercorn, who presided, was received with loud cheers on taking his seat. Amongst those present were the Earl of Belmore, the Marquis of Drogheda, the Marquis of Headfort, Lord Clonbrock, Lord Ardilaun, the Earl of Donoughmore, the Earl of Carysfort, the Earl of Dartrey, Lord Crofton, Earl Rosse, the Earl of Longford, the Earl of Westmeath, the Right Hon E Gibson, Q C, M P, Sir George Colthurst, the Right Hon Colonel Taylor, M P, Sir H H Bruce, Bart, Sir John Blunden, Bart, Colonel A Loftus Tottenham, M P, Captain Beresford, M P, Mr I T Hamilton, M P, Mr Arthur M Kavanagh, Colonel King Harman and Sir Charles Knox Gore. Col, Tottenham, M P, read the letters of apology that had been received. The Earl of Meath wrote that he considered it the duty of every landlord to raise an indignant protest against the partial and unjust decisions of the Sub-Commissioners. Earl Fitzwilliam wrote that the Land Act must now be accepted by all loyal men, but they could not too strongly impress upon the Government the absolute necessity of appointing as Sub-Commissioners men whose character for impartiality and justice had already earned the confidence and respect of the community. Mr Mulholland, M.P, wrote—"My support of the Land Bill was given on the faith of the assurance of Mr Gladstone that the intention of the fair rent clause was to meet those cases—comparatively few and exceptional—where rent had been arbitrarily increased—(applause)—and that it was not the intention to disturb the existing standard, which was practically well understood. The Sub-Commissioners have been reducing rents generally. The principle upon which they are doing so has not been disclosed, but it is certainly not the principle stated by Mr Gladstone. (Applause). If a new standard of valuation is to be really introduced, there can be doubt that that can only be done fairly by a general revaluation of Ireland—(hear, hear)—upon a uniform principle conducted by properly trained and qualified valuators. (Hear, hear). As a valuation the present system is a farce." (Hear, hear).—The chairman said that whatever their opinions might be regarding the Land Act they were bound to accept it now that it had become law. He did not want to enter into the political question. Their object was to condemn and criticise the mode in which the Land Act was being administered by the local Sub-Commissioners—(applause)—and he believed the meeting would concur with him when he said that they did not do so in any spirit of hostility to the tenants who might have found it their interest to take advantage of the Act. As a rule, the landlords of Ireland had dealt fairly and justly with their tenants, in support of which he referred to the report made by the Bessborough Commission, which could not be accused of partiality towards the landlords, and from whose report a great part of the Land Act had been evolved. Mr Gladstone, when he introduced the measure, speaking of the Land League proposal, which then was to pay only Griffith's valuation, said, 'I am bound to say that it passes my ability, to distinguish these proposals from public plunder.' (Hear, hear). He said, 'The Irish landlords have stood the trial, and they have as a rule been acquitted.' (Applause). On the second reading he said the proposed principle of confiscation would be a disgrace to the Minister who discussed it, and to the Parliament which tolerated it for a single moment. Mr Gladstone further said at Leeds on the 7th October, speaking of the Land League, 'Mr. Parnell told the people of Ireland not to pay the rents which they had covenanted to pay, and that whether they were able or unable they were under no obligation to pay those rents, but that they should only pay rents according to the views set down in Griffith's valuation—a valuation,' added Mr. Gladstone, 'much below the value in by far the greater number of cases, and framed for a different purpose.' (Hear, hear.) Reductions had been universally made, except, he believed, in half-a-dozen cases, one of which was the notable case of half-a-crown given to a well known baronet. (Laughter.) In one case the Sub-Commissioners went to value seven farms containing an aggregate of 1,700 acres in a short day in December. They arrived on the ground at a quarter-past two in the afternoon, and left the ground at a quarter to four in the afternoon. ('oh,' and applause.) On this cursory and haphazard bird's-eye view reductions were made of 25 per cent. on the actual rentals and 20 per cent. on the Government valuation, which had been very nearly the same as the original rent. (Applause.) Now it must be admitted that the Sub-Commissioners were conscientious. He believed they must give them credit for that, in not sparing either their labour for their time; but valuations made in that haphazard way were nothing but a preposterous farce. (Applause.) It had been insisted upon in some Liberal and Radical papers that the landlords of Ireland had no right to complain of those reductions, because the landlords of Scotland and England have also made reductions. This was altogether an untrue and false issue. The reductions which had been made in England were for the most part merely temporary abatements made for a year or so in consequence of bad seasons, and made by mutual agreement. But the reductions made in Ireland, which were much larger, had been made by an arbitrary and irresponsible body, and were not temporary abatements, but permanent reductions—reductions virtually in perpetuity for a succession of fifteen years. Resolutions were then passed censuring the administration of the measure, expressing want of confidence in the qualifications of many of the Assistant-Commissioners, protesting against the action which they had taken, and declaring that the appeals from their decisions should be heard by the Chief Commissioners without delay.

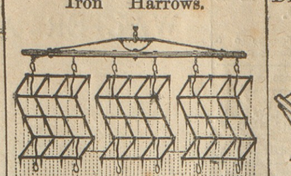
HOWARD'S CELEBRATED HARROWS

Howard's Iron Harrows.

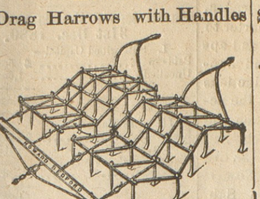


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial-made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 2½ cwt.....
No. 12, for two animals, 9½ feet wide, weight 1½ cwt.....
No. 14, for one or two animals, 8½ feet wide, weight 1½ cwt....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

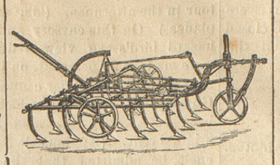
Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clear them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 3½ cwt.....
H 16, a pair of 3-beam Harrows, with whippletree, 7½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 9½ feet wide weight 3 cwt.....
H 17, a pair of 3-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 18, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 2½ ctw.....

Howard's Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 5½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 25 tines 7½ ft. wide, weight 5½ cwt..

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism. Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy,s Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."
